

STATEMENT BOLD BROWS

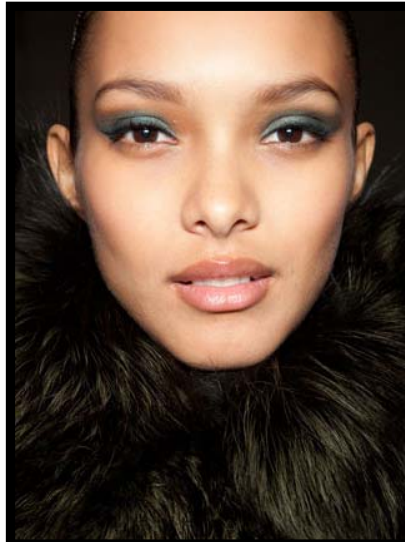

at the Vaishaly Clinic, London

AW12 sees the return of the bold statement eyebrow as seen at Burberry, Missoni, Etro and Chloe. The strong brow trend is as groomed as ever with a tidy full finish, which can be achieved with a **threading and tint treatment** available at the **Vaishaly Clinic**.

Vaishaly offers an **'Eyebrow Threading and Eyebrow Tint'** package with her team of experts to get your brows ready for autumn winter. The **team of experts** have over 50 years experience and will not just groom brows but also advise clients on how to improve the shape in the long term, finishing off with an eyebrow tint which helps enhance fine hairs and complement features.

ETRO

JASON WU

BURBERRY

Vaishaly's renowned threading treatment is highly sought after; she uses this ancient method of hair removal to sculpt brows that enhances each face beautifully. The final result is always unique, but bears the sharp, naturally polished look that is Vaishaly's hallmark.

Vaishaly has personally trained just three assistants: Louise Loriggio, Stephanie Archer and Stephanie Bell, whom she calls her team of experts and works closely with all of them to pass on her signature technique. The team of experts are all based at her London clinic.

Eyebrow Package including Threading and Tint with Team of Experts - £25
