

THREADING

Threading is the ancient art of removing hair from the roots using cotton thread; re-growth is slower and finer, leaving the skin clean and smooth, with lasting results. Vaishaly has designed her own technique over 20 years and is recognised as the original queen of eyebrows and the founder of the art of threading in this country.

The results bear the sharp, naturally polished look that is Vaishaly's hallmark. Vaishaly has personally handpicked only the best aestheticians that she has personally trained at the Vaishaly Clinic to carry out her Signature treatments.

FACIALS

Vaishaly Signature Facial

The Vaishaly Signature Facial is as individual as each client and their specific skincare needs. Recognising that these are always changing, reflecting seasonal and hormonal factors and our general state of wellbeing, every step of this expertly prescriptive facial - incorporating deep-cleansing, skilful and effective extraction, gentle micro-dermabrasion to lift off dead skin cells, followed by high frequency, a fantastic multi-functional tool that effectively dries and closes pores after extraction that also has a germicidal effect killing any bacteria in the skin (particularly beneficial for oily or acne skins) - that delivers a clearer, smoother, softer and naturally radiant complexion.

Vaishaly's facial massage technique - known to beauty insiders as 'her anti-ageing beauty secret' - is what makes her Signature Facial so sought after.

Vaishaly believes that it is the state of one's mind that ages us. All emotional and mental stress is held in our body and this in return is expressed outwardly in our skin. This is why Vaishaly believes it is fundamental to 'switch client's mind's off' during the facial, transporting them to a place of complete and deep relaxation. This technique immediately rebalances and harmonises the whole body and skin enabling it to appear more youthful and stress free with an internal glow.

After just one treatment the combination of healing properties of organic essential oils and ingredients in Vaishaly's signature skincare range and her unique massage techniques will improve elasticity and tone, boost circulation, and eliminate puffiness. Defining facial contours and features as well as plumping the skin, diminishing fine lines and wrinkles to reveal an even, radiant and polished youthful complexion.

Eye make-up and contact lenses should be removed prior to treatment.

SEMI-PERMANENT BEAUTY

Microblading

Microblading also known as eyebrow embroidery is a form of tattooing, applying pigment into the eyebrows using an ultra-fine blade. Pigment is implanted under the skin and tiny strokes are created using the pigment and blade. Unlike semi-permanent tattooing the effects do not fade into a block of colour:

Microblading mimics hair strokes and therefore delivers much more natural looking brows.

This technique is performed using a manual blade and not a machine, therefore allowing for a very intricate process that meticulously creates each hair stroke.

HAIR REMOVAL

Waxing

We offer both cream strip wax and Perron Rigot Rose Hot Wax which is specially imported from France. This non-strip wax is great for removing the most stubborn hairs and excellent for sensitive skin, leaving the skin feeling calm and soothed straight after the treatment. Our luxurious cream strip wax is applied with a spatula and removed immediately using a paper strip.

For the best results hair should be at least 2mm to ensure removal. No body creams should be applied prior to waxing and there should be no exposure to sunbeds, hot showers, baths or swimming pools 24 hours prior or post waxing.

Electrolysis

Electrolysis, over many years, has proven time and time again to be a very reliable and only way to remove ALL types of hair permanently. Particularly great for strong deep rooted, white and fair hairs and skin types that are not suitable to have laser hair removal. Electrolysis targets each hair follicle with a clean sterilised needle, Then a small amount of diathermy, which feels like a small burst of heat is released into the follicle releasing the hair.

LASER HAIR REMOVAL

The ‘Soprano’ laser hair reduction at the Vaishaly Clinic is FDA approved, and is proven to treat all skin types of any colour. It is virtually pain free with a special system that cools the skin on contact. This makes the treatment more comfortable and clients can relax during the treatment. We recommend that you are not actively tanning. You should stop waxing and plucking 4 weeks prior to your treatment.

Skin Tightening For Men

The Soprano NIR penetrates and heals your skin's inner layer without harming its surface. The light tightens, as well as tones and textures your skin. The results: improved overall skin appearance without injury.

VAISHALY'S PHILOSOPHY

Less is More

“I believe passionately in treating the skin as gently and naturally as possible, and the products in my skincare ritual – which are the same as those which I use in my treatments – reflect this philosophy. Certain ingredients have been avoided, in order to allow the skin to ‘breathe’ and to reduce the risk of any irritation or reaction in more sensitive complexions.”

About Our Therapists

Superfacialist Vaishaly has been an expert in her field for over 20 years and has carefully hand-picked just a handful of therapists to perform the Vaishaly Signature treatments. With over 10 years’ experience each in world class luxury spas across the globe their care and expertise are second to none. Vaishaly and her team work very closely and extensively together to ensure your Vaishaly experience is unique and perfectly devised to suit you.
